

Technical drawing of a drainage system cross-section. The drawing shows a rectangular structure with a top layer of gravel (1), a middle layer of gravel (2), and a bottom layer of gravel (3). A circular drain is located in the center. Dimensions are given in mm: 100, 1000, 100, 100, 150, 150, 300. The top layer is 100 mm thick, the middle layer is 1000 mm wide, and the bottom layer is 100 mm thick. The drain is 150 mm in diameter. The total height of the structure is 300 mm. The top layer is labeled 'KÓTA UPRAVENÉHO TERÉNU' (Level of the finished ground).

/150

The diagram shows a vertical cylinder with a piston at the bottom. A dashed vertical line represents the cylinder's axis. Two pressure inputs are shown: 'A' at the top and 'D<sub>st</sub>' at the bottom. Each input is represented by a horizontal line with a downward-pointing triangle. A thick black line, representing a piston rod, extends from the piston to the right, ending in a circular cross-section.
