The diagram illustrates the division of a total length of 10,50 into five segments. The segments are labeled with their respective lengths: 2,00, 3,00, 3,00, 1,50, and 1,00. The total length is indicated by a dimension line at the top, and the individual segments are shown below it with their own dimension lines.

SROVNÁVACÍ ROVINA

STANIČENÍ V M

Diagram showing a cross-section of a road profile. The vertical axis represents elevation (KÓTA ZEMNÍ PLÁNĚ) and the horizontal axis represents stationing (STANIČENÍ V M). The profile shows a road surface with a 3.00% grade on the left, a 2.5% grade in the middle, and a 2.0% grade on the right. The road surface is labeled "STÁVAJÍCÍ STAV" (Existing State). The profile is compared to a reference level (SROVNÁVACÍ ROVINA) at elevation 467.00. The diagram includes various elevation points and stationing markers.
